Welcome

Some Great Luster Coin Company

Behind Every Coin Is A Great Story
Celebrating History Through The Story Of Coins

Coin collectors, history buffs welcome! Or perhaps you are just someone with curiosity about the ancient past, coins and currency, and would like to learn more fascinating facts! As collectors, we pay homage to the history every time we add a coin to our collection. We believe that the history of an item is its most valuable asset. And it is through these fascinating stories that come along with a coin's history is what gives it value and meaning and gives a collector a great way to connect with their collection in a much more real and meaningful way.

There are few things that provides such first hand insight into the lives and cultures of those from the ancient past than through the coins and currency used during that era. Like many times, cameras can't image the art as a same shot forever capturing the ideas and beliefs of the cultures from which they came.

These items that were right in the mix of things, exchanging hands by the common man in everyday commerce, somehow managing to survive thousands of years until today, the minting and all and thereby proving us with historical insight into their culture, a direct connection to the ancient past.

So, imagine learning that the plain, old coin is a Roman Denarius from 200BC, a common coin, but also the backbone of all foreign currency forever inspiring all European coins from then on, or that your other coin is actually not a coin at all rather a bronze weight used in the Early Roman Republic? How about discovering that the designer of the unsightly person with a hooked nose on an ancient coin is actually one of the supposedly young and beautiful Cleopatra! That is amazingly 2000 years old! Nobis, infamous Ancient Rome mint city located on the other side of the planet, AND now sitting on the palm of your hand as the owner?

One can see how knowing a little bit of history can make something a bit more meaningful then it was without knowing it.

But it seems as though coin shops did not prioritize or place any emphasis on that aspect of collecting at all. It provides provide a short impromptu speech or a small snippet of a items purchase page you would leave with a coin and a receipt, throw it in your album, and never learn anything.

So, along with a new coin to have, we will try to enrich the collecting experience by adding a little more with it and we do it by just providing something it already has. Yes, you guessed it's HISTORY.

You will leave knowing it's unique story while also having something ready to go along with your coin and provided for you to conveniently draw upon when with your collection. A keepsake for your coin, it maybe in the form of a story booklet outlining its history or a mini book with a collection of items that supplement the coin's story. There are many ways to provide the history or story which makes collecting even more fun and adds the value of your collecting experience, then just leaving with the item itself. The fact is being Armed with this knowledge allows one to connect with the ancient past in a way that is more real than anything out of a history book.

So, welcome! You are invited to explore the world and enjoy your time as you learn about the histories of potential additions to your collection and while listening to the stories that make each and every coin unique. Through different mediums from informational pamphlets and story booklets, to high quality interactive graphics and designs, enjoy the stories and learning the history about just how a coin thousands of years old can become an item added up in your collection and the fact that its unbelievable story has now become apart of yours! - SG Luster Coin Co.
